Brown Dripline DB Fittings™

Brown Double Barb DB Fittings™ are acetal fittings for high retention and long-term reliable connections in low-pressure (LDPE) tubing. The 14 mm brown fittings are ideal for 16 O.D. brown dripline.

Features

- Double barb for increased retention.
- Operating pressures up to 300 kPa.
- Sharp-edged barbs for secure connection.
- Engineering grade UV stabilised Acetal plastic for long life.
- The space between double barbs allows placement of Antelco Ratchet Clamp's or Stainless Steel Clamps for extra security.

Applications

Suitable for sub surface and above ground drip irrigation systems and landscape applications. Suitable for vineyards, orchards, nurseries and commercial landscapes.
