

eZyvalve[®] 4

The easy to install automatic multi-zone valve system

eZyvalve[®] 4 Automatic Solenoid Valve Box

A compact 4 watering zone valve system all enclosed in a weatherproof box. Available in two models, 24Vac for traditional mains powered controllers and 9Vdc for Battery operated controllers.

Features

- Operates up to 4 separate watering zones
- Suits micro irrigation systems.
- Suits flow rates up to 20 lpm.

Benefits

- Labour saving - no need to plumb valves into a manifold.
- Easy, Neat DIY Installation to garden tap.
- Above or below ground or mulch installation.
- Weatherproof housing and water resistant connectors.
- No need for primers, glues or thread tape.

Robust Valve Enclosure to protect valves

"O"ring sealed lid
