# Hold Down & Locating Stakes

Hold Down & Locating Stakes for restraining and positioning tubing in micro irrigation systems.

## Features

- Asta<sup>®</sup> Clip stake locates and secures micro polyethylene tubing (up to 7mm OD).
- Asta<sup>®</sup> Hold Down stake locates and secures polyethylene tubing (up to 22 mm OD).
- Locating Drip Stake dual barb connects 3 & 4 mm tubing allowing for accurate positioning directly above root zone.
- Locating Drip Stake is compatible with Antelco SPEC Drip<sup>™</sup> or CETA<sup>®</sup> Barbed Outlet (see pages 12-15).
- UV stabilised materials for long life.

## Applications

Securing drip and micro irrigation tubing in home gardens, landscaping, and agricultural installations.
