

Rotor Max™ Deflector

New field snap-on 180° Deflector provides part circle operation for road edges, driveways and end of sprinkler rows.

Features

- Easy snap-on field fitted Deflector.
- Directional ribs distribute the water evenly over the 180° pattern.
- Water is redirected by the cupped spray plate providing improved application uniformity over flat plate deflectors.

Applications

Part circle applications such as road edges, driveways and end of sprinkler rows.
