

# Installation Tools

Tools to assist in the installation of micro irrigation systems. The all new Socket Driver is an accessory product to support the installation or servicing of Rotor Rain™ Plus Mini Sprinklers into threaded adapters, risers and stakes.

### Features

- Key Punch™ creates holes in tubing for inserting emitters. The sleeve assists in installing hexagonal based jets and the hole aids removal of jet caps for cleaning.
- 2 in 1 Punch and Cutter is designed for cutting CVT and LDPE tubing up to 19 mm (21 mm OD) and punching holes into tubing for emitters and fittings.
- 2 in 1 Punch and Cutter comes pre-packaged in ready-to-hang retail pack.
- Socket Driver is assembly tool for Rotor Rain® Plus. Fits into any drill. Simply slip socket driver over sprinkler head for quick and easy installation into stakes.

### Applications

For installing micro irrigation systems by home gardeners, contractors and professional irrigators.

TOOLS

Key Punch™
