# PotStream®

## Adjustable flow pot watering device

Made in Australia

www.antelco.com

DRIPPERS

The PotStream® is an innovative solution for watering your pot plants and containers.

The PotStream® is a side mounted watering device with a gentle four stream watering pattern to help minimise soil erosion.

The adjustable watering knob allows for variable flow rate and pattern radius, making the PotStream® suitable for use in various pot sizes.

The vertical inlet barb ensures the supply tube runs down the outside of the pot or container, keeping your system neatly out of sight.

**Features**

- ☑ Variable flow rate and pattern size suits pot diameters of 200 mm and upwards
- ☑ Suits pot wall thickness up to 40 mm
- ☑ Side mounted installation for neat location of the supply tube
- ☑ Low application rate and gentle stream pattern
- ☑ Easily adjustable knob for varying spray patterns
- ☑ Available as standard PotStream® or pre-assembled with 600 mm tube and adaptor

**Recommendations**

- ☑ Use in conjunction with a Tidy-Bow™ Clip On Elbow to keep tube neatly beside your pots for a mess free system.

**Applications**

*Potted plants, planter boxes and containers.*

**PotStream® Adjustable Flow**

**Features**

- Gentle four stream watering pattern.
- Variable flow rate and pattern size suits pot diameters of 200 mm and upwards.
- Suits pot wall thickness up to 40 mm.
- Simply turn the knob to adjust the amount of water the plant receives.

**PotStream® Assembly**

**Features**

- Comes pre-assembled with 600 mm tube and adaptor
- Pre-assembly saves installation time.
- Simply pair with the Antelco Tidy-Bow™ Clip-On Elbow for a mess-free system

**Tidy-Bow™ Clip On Elbow**  
Code: 45345
