REUZIT®

Recycled Water Products

Made in Australia

www.antelco.com

The ReuZit® range of products have been specifically designed for domestic and small commercial Aerobic Treatment Systems (ATS).

They are easily identified by the purple colour which is the international industry standard for non potable water.

Features

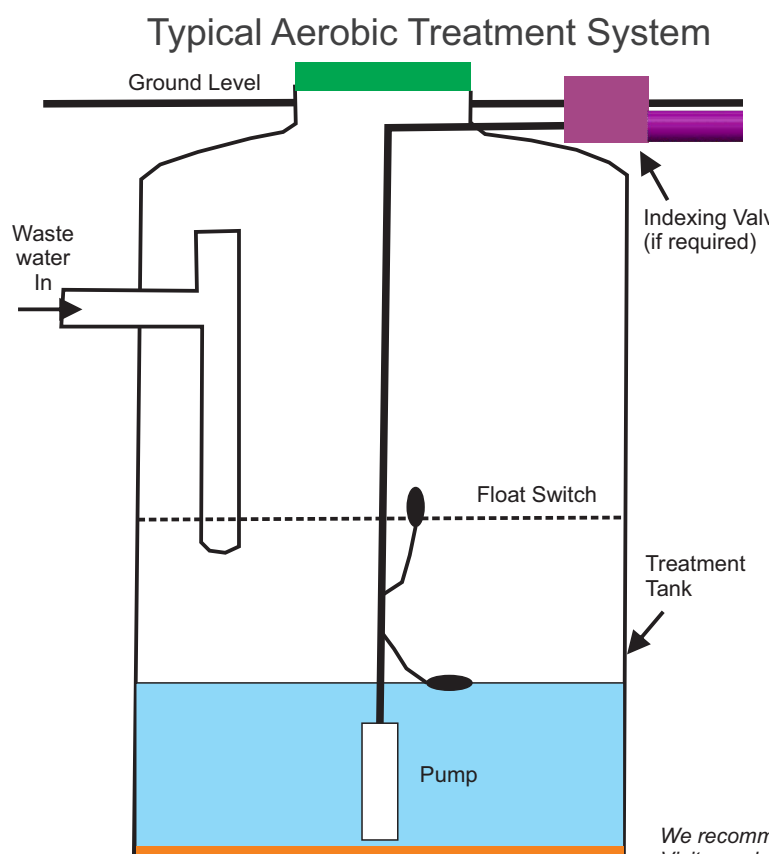

- ✓ Operate at low pressure which is typical for these systems
- ✓ Spray irrigation gives visual indication of correct operating system
- ✓ Watering devices have large nozzle sizes to help reduce clogging
- ✓ Product height is less than the recommended installation height of 0.6 m
- ✓ Purple colouring to indicate “do not drink”

Recommendations

- ✓ Install ReuZit® products in well mulched garden beds
- ✓ Provide signage for your garden to specify recycled water is being used
- ✓ Ensure water does not run off from garden beds
- ✓ Consider using an indexing valve for larger areas or where soils are heavy

Applications

Localised watering of trees and shrubs on mulched areas

Accessory Products

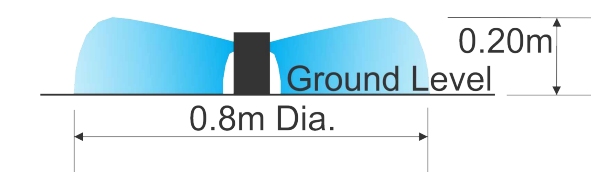

We recommend using quality Antelco poly fittings and clamps with these systems. Visit your local stockist or our website www.antelco.com to view our full range

ReuZit® Bubbler Assembly

Features

- Robust stake with hammer point for inserting into soil.
- Large 2.3 mm diameter nozzle size to reduce clogging.
- 400 mm flexible riser pipe with easy insert hypodermic adaptor.

FLOW : 97 L/hr

*Performance at 50 kPa and sprinkler at 0.2m above ground

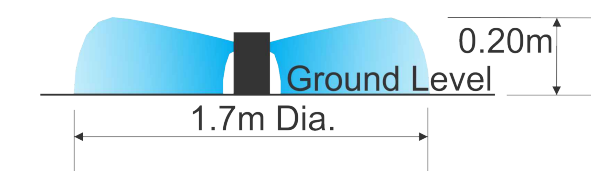

Type	Order Code
ReuZit® Bubbler Assembly	42005

ReuZit® Spray Assembly

Features

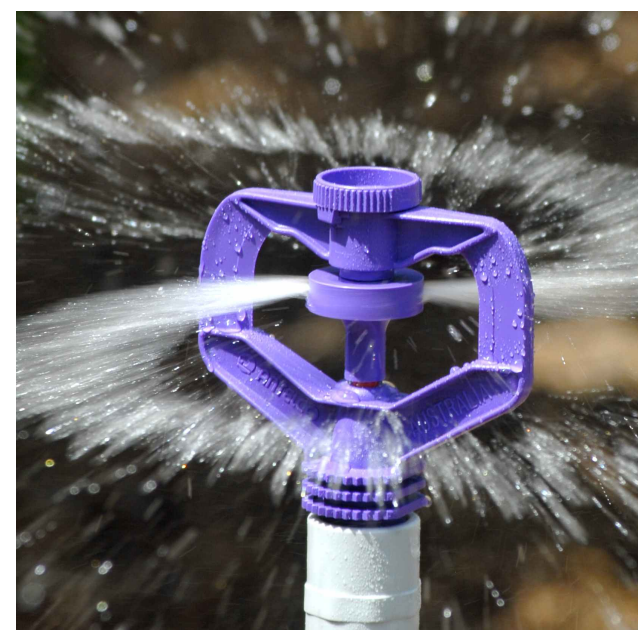

- Robust stake with hammer point for inserting into soil.
- Large 2.8 mm diameter nozzle size to reduce clogging.
- 400 mm flexible riser pipe with easy insert hypodermic adaptor.

FLOW : 195 L/hr

*Performance at 50 kPa and sprinkler at 0.2m above ground

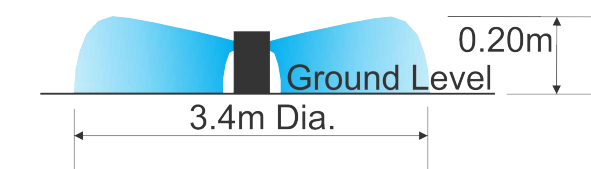

Type	Order Code
ReuZit® Spray Assembly	40595

ReuZit® Sprinkler

Features

- Robust stake with hammer point for inserting into soil.
- Large 3.8 mm diameter nozzle size to reduce clogging.
- 13 mm Barbed take off to suit Low density poly tubing.

FLOW : 380 L/hr

*Performance at 50 kPa and sprinkler at 0.2m above ground

Type	Order Code
ReuZit® Sprinkler Assembly w/13 mm inlet	40585
ReuZit® Sprinkler 1/2" BSPM	21575
